

Gary Swartz
E-Z Taping System

Dear Gary,

Thanks again for your donation of E-Z Tape and the applicator. We have used them on several projects and they make drywall taping much easier, especially for inexperienced Habitat for Humanity volunteers. The adhesive on the tape makes it easy for our workers to get a good taping job without having to set the tape in mud. The applicator makes the job go more quickly on our larger projects.

We will be doing our first ICF (Insulated Concrete Forms) basement this summer and I look forward to using your tape when we drywall the basement.

Again, thanks for the donation.

Mike Moran
